

MEET THE TEAM

DESIGN & BUILD CO-ORDINATOR MICHAEL PANNETT

Michael brings nearly 30 years of experience covering UK and international development. He is initially from an architectural background and can therefore provide the technical interface support during the pre-construction and construction phases for “design & build” projects. He also has experience within Construction and Contract Management and can demonstrate an excellent track record of project delivery in terms of time constraints, quality and meeting budget.

CAREER HISTORY

Michael began his career working for local architectural practices and gained experience over a 10 year period working within all market sectors. He was responsible for the detailed technical design and production information for Building Regulation compliance. He then progressed into Project and Contract Management both within the consultancy and main contracting market sectors and has worked for the likes of Wates Construction and Wimpey Homes.

Before joining Ellis, he has spent the past seven years specialising within the “high end” residential market, working on architecturally challenging new build and refurbishment contemporary schemes.

SECTOR EXPERIENCE

New build, refurbishment and conversions
Design & Build, traditional and framework procurement
High end residential schemes
Listed building experience
British Embassy and Consulates
Commercial and retail fit out
Hotels and schools
Tourism and leisure

QUALIFICATIONS AND CAREER TRAINING
